Hi Cat,

Hope all going well? I'm looking at using the land west of park farm app as a good design example for a meeting with Patrick and Brian, and was going through the public access file. I can't see if this has gone to committee or got permission – is that likely do you think? I saw the Thornbury objection! I wanted to use this as an example of the things we can do in design terms, rather than highlighting that it is outside the development boundary etc. Cheers,

Many thanks,

**Matt Haslam**  
**Senior Planning Officer (Urban Design)**
