

- Legend**
- Site
 - Proposed pedestrian linkages
 - Proposed vehicle entrances
 - Proposed sustainable transport connection to Park Farm
 - Existing trees and hedgerows (priority habitat)
 - Existing water course (priority habitat)
 - Existing standing water / pond (priority habitat)
 - Proposed informal meadow grassland
 - Proposed wet grassland (SuDS depression)
 - Proposed Wessex Water Foul Drainage
- Proposed Tree/Hedgerow Planting:**
- Native woodland structure planting (mixed species sizes)
 - Parkland /open space planting (mixed species sizes)
 - Translocated hedgerow
 - Street trees (large species)
 - Trees along road frontage (large species)
 - Destination Park
 - Neighbourhood Greens
 - Natural Play
- ① Proposed allotments
 - ② Proposed SuDS surface water attenuation areas: (It is envisaged that these would be dry depressions that would periodically fill with water for short periods of time during storm events)
 - ③ Proposed translocated hedgerow
 - ④ Location of existing hedgerow linking to woodland
 - ⑤ Proposed parkland/informal POS
 - ⑥ Proposed green corridor
 - ⑦ Easement for existing oil pipeline
 - ⑧ Existing watercourse & proposed crossing points
 - ⑨ Proposed indicative wildlife pond location
 - ⑩ Existing pond (priority habitat)
 - ⑪ School (1FE)
 - ⑫ Indicative location of Retail/Community Hub

NOTE: This drawing should be read in conjunction with the Green Infrastructure Context Plan 16-10-PL-202 which shows the green infrastructure assets and links surrounding the site.
