For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

# DRT H COMPARISON SITES

D1.1 This text considers the five consented sites listed in Section three of my proof, and sets out in further detail the walk/cycle distance to local facilities as well as bus service provision.

#### P19/14956/F - Tytherington

- D1.2 The location site, site boundary and local facilities are shown on the layouts in Appendix H. The edge of the built-up area of Thornbury is just visible in the top left-hand corner of the layout where the nearest supermarket, health services and pharmacy are located.
- D1.3 It should be noted that the walk/cycle route to Thornbury from Tytherington is via an unlit road subject to National Speed Limit, with the footway changing sides along the route. Similarly for the pedestrian route west of the A38, the footway linking to the controlled pedestrian crossing within the signal-controlled junction changes side of the road with no controlled crossing facilities.

**Bus Services** 

- D1.4 The closest bus stop is 250m to the southeast of the site, located on Duck Street. This stop serves just the 622 route which 622 connects Chipping Sodbury to Cribbs Causeway via Thornbury.
- D1.5 Eastbound towards Chipping Sodbury this service runs on a 2 hourly basis from 8:11 to 17:51 Mondays to Fridays, totalling seven journeys. The service runs on Saturdays with the first journey at 09:51 and the last at 15:51 also on a 2 hourly basis, totalling five journeys during the day. The journey takes 19 minutes to reach Yate Shopping Centre.

D1.6 Westbound towards Cribbs Causeway this service runs on a 90-minute basis from 07:33 to 18:53, Mondays to Fridays, totalling eight journeys. On Saturdays the service starts at 10:53 and ends at 15:23, totalling four journeys. The journey takes 10 to 15 to reach Thornbury and 55 minutes to reach Cribbs Causeway.

# **P20/06928/O – Rangeworthy**

- D1.7 The comments from SGC on the application state that the proposed shop that was part of the application would perform the function of local shop. Whilst the shop may be built, there is no guarantee that it would open as a shop selling day to day food/items. We have therefore not included it in the analysis.
- D1.8 The route to Brimsham Green school is along a lit footway with a 40mph speed limit.

### Yate/ Engine Common - P19/2575/F

D1.18 The site is located to the north-west of Yate, just north of the Beeches Industrial Estate. The route to the Primary School is via lit footways on North Road, and the route to Brimsham Green school is via Broad Lane, which is lit and has footways except for a traffic free section over the railway. As shown in the table below with the exception of employment opportunities in the Industrial Estate, all other shops and services are far greater than the PSP11 distances.

# DRT I TRAFFIC CALMING TECHNICAL NOTE

# **Technical Note**

Title	P21/03344/F – Proposed Traffic Calming			
Prepared by	DRT	Checked by	Reviewed by	
Date	18 <sup>th</sup> November 2021		Version	1.0

#### 1. Introduction

- 1.1. This note has been drafted in response as a rebuttal to objections received from South Gloucestershire Council (SGC) Highway officer on 14th July 2021.
- 1.2. Following a meeting with SGC on 3<sup>rd</sup> November, it was proposed that a design for traffic calming would be suggested. With slower speeds through the village, it is anticipated that visibility splays at the access can be accommodated without the need for a build-out.
- 1.3. The location of the proposed traffic calming measures are shown on the attached drawing 0956-008.

#### 2. Village Gateway

2.1. Approaching the site from the west, there are village signs at the start of the 30mph speed limit, see Google Street View images below. There is a faded 30mph roundel as well.

- 2.2. It was considered that if there was a more visible entrance gateway to the village, it would assist in slowing vehicles down.
- 2.3. The website Traffic Choices <a href="https://www.trafficchoices.co.uk/somerset/index.shtml">https://www.trafficchoices.co.uk/somerset/index.shtml</a> gives examples and information for traffic calming and safety schemes. It is proposed that signs are erected on more prominent posts, such as those in the image below.

This would be combined with Dragons Teeth markings such as the image below.

2.5. The Traffic Choices website refers to research that a village gate way in conjunction with Dragon's teeth markings are reported to slow traffic by around 6mph1

<sup>&</sup>lt;sup>1</sup> https://safety.fhwa.dot.gov/speedmgt/ref\_mats/fhwasa1304/resources2/01%20-%20Driving%20simulators%20for%20robust%20comparisons-

<sup>%20</sup>A%20case%20study%20evaluating%20road%20safety%20engineering%20treatments.pdf

2.6. The recorded eastbound speeds from 2019 were an 85<sup>th</sup> percentile of 36mph. A 6mph speed reduction would bring that in line with the speed limit.

#### 3. Pedestrian Island

- 3.1. A comment from the Road Safety Audit was that an informal crossing point was recommended to allow access to the eastbound bus stop. A pedestrian island would also offer additional traffic calming through the village.
- 3.2. There are two pedestrian islands to the east, within the village, built in the existing carriageway width offering 3.25m traffic lanes either side and an 800mm wide island with uncontrolled crossing facilities.
- 3.3. Drawing 0956-007A shows a pedestrian island to the west of the site access similar to those in the village, with a footway on the southern verge linking to the site access. The limit of public highway/verge reduces to 1.5m, which therefore limits the footway width to 1.5m, a similar width to the footway on the northern verge.
- 3.4. Data from TRL report 397² demonstrated a pedestrian refuge resulted in a 5mph speed reduction. The 2019 85<sup>th</sup> percentile westbound speeds were 40mph. Reducing by 5mph would bring them down to 35mph.
- 3.5. Drawing 0956-007A shows a 54m visibility splay to the east, suitable for the 35mph speed. Visibility to the west as been drawn at 53m (34mph) to the nearside kerb, but also 43m (30mph) to the centreline, as the proposed island should prevent westbound vehicles travelling along the southern carriageway edge.

#### 4. Pedestrian Crossing

- 4.1. The developer is willing to fund a controlled pedestrian crossing within the village, to help existing residents and residents of the new development cross the road to access the school and bus stops, but also to offer another element of traffic calming.
- 4.2. The proposed location would be east of the Chapel Lane/Cotswold Lane junction as it is away from access points and also on the line of the Cotswold Way, which will benefit leisure walkers in the area, and shown on drawing 0956-008
- 4.3. The precise layout and location of the crossing will be agreed with SGC officers at the detailed design stage.

KTC

<sup>&</sup>lt;sup>2</sup> https://trl.co.uk/uploads/trl/documents/TRL397.pdf

### 5. Conclusion

- 5.1. Based on the data from Traffic Choices and TRL, the proposed traffic calming should reduce vehicle speeds through the village and enable visibility at the access without the need for a build-out.
- 5.2. The proposed crossing would assist existing residents, residents of the proposed development and leisure walkers on the Cotswold Way with a safe crossing of the A352.
